Mathura • 7017373927 • shreyash.agarawal3004@gmail.com • [Github](#) • [LinkedIn](#)

PROFILE

B.Tech Computer Science student with strong DSA and backend skills, experienced in building full-stack applications including an AI-based election assistance system.

EDUCATION

B.Tech in Information Technology, GLA University

AUGUST 2024 - Present

- CGPA : 7.5

KMPS School Mathura

- 12th : 75%
- 10th : 90%

SKILLS

Development - Node.js, Express.js, MongoDB, SQL, Firebase, React.js, HTML, CSS, JS, Git.

Programming Languages : C++, Java, Python, JavaScript.

PROJECTS

Smart Hostel Hub

- Developed a **full-stack** hostel management system with features like **AI chatbot**, **SOS alerts**, and **gate pass automation** to improve student experience and administrative efficiency.
- Built **RESTful APIs** using **Node.js** and **Express.js** with **MongoDB (Mongoose)**, implementing secure authentication using **JWT**.
- Designed a responsive frontend using **React.js**, Vite, and Tailwind CSS, with **Context API** for state management and **Axios** for API integration.

Briefly (SummarizerAgent)

- Developed **Briefly**, an **AI-powered content summarization platform** that converts **YouTube videos**, **PDFs**, **webpages**, and **emails** into actionable insights, reducing information overload.
- Built scalable **backend** using **Node.js** and **Express.js** with **MongoDB Atlas**, implementing secure authentication via **JWT** and **Google OAuth (Passport.js)** along with security practices like Helmet and Rate Limiting.
- Designed a responsive frontend using **React.js** (Vite) and Tailwind CSS, integrating **AI-driven features**, **Context API**, and tools like **Axios**, **jsPDF**, and react-markdown for seamless user experience.

ElectionEase Bot

- Developed an **AI-powered election** assistance platform featuring **Gemini-based chatbot**, **candidate comparison**, and **voter match system** to help users make informed decisions.
- Built scalable backend using **Node.js** and **Express.js** with **MongoDB Atlas**, integrating **Google Gemini API** for intelligent query handling and real-time insights.
- Designed a responsive frontend using **React** (Vite) and Tailwind CSS, incorporating **multilingual support (i18next)** and smooth UI with **Framer Motion**, deployed on **Vercel** and **Render**.

ADDITIONAL INFORMATION

- **Certifications:** **Web Development Certification** Infosys Springboard.
- **Solved 200+ DSA problems**, improving algorithmic thinking and coding efficiency.
- **Language** : English, Hindi.
